SANDY BOTTOM, Middlesex, co., Va , August 29th, 1853. Messrs. Mortimer and Mowbray: -Gents - You may think it strange that I have taken the liberty to write you this letter, but I do so under circumstances that justify it. As you are the Agents for HAMPTON'S VEGETABLE TINCTURE, I deem it expedient to address you this note, hoping it may be a part of the honorable means of giving this medleine notoriety which its merits deserve. Being in the habit of vending medicines which re-

late to the patent and regular system, I consider myself, to some extent, a judge of the real merit of many of them. My experience teaches me that "Hampton's Tincture" is a Medicine of real merit of intrinsic value. When I say this, I do not say that it is an infallible cure in all cases, but I mean to say that Hampton's Tincture will favorably operate in all diseases originating from a want of proper secretions of the gastric juices, bad digestion, and conse quently bad deposits of animal matter from that source. I believe that many diseases located in va rious parts of the system, such as Inflamation, Ul ters, Scrofula, &c., originally have their being in the stomach, from bad food, bad digestion, and consequently bad depositions of the circulation to those parts; and I will believe Hampton's Vegetable Tinc-

ture will even react in those cases. Having found out myself what it is, I recommend have done it upon the "no cure no pay" system, and I have yet to have the first bottle returned, or the first objection about the pay. It is a great pity, it cannot be more extensively circulated among the it in the following cases; Gout, Rheumstism, Inflamations, which proceeds from the stomach, Scrofula Sores, Dyspepsia, long standing cases of Ague and Fever; first stop the chill, and then give the Tine ture - the difficulty in this case is not in stopping the chill, but the return of it, this the Tincture will

certainly do. In general debiliations, I warrant it, and as I said before, I have procured a trial of it in this way, which otherwise I could not; the people have been humbugged by patent medicines so long, that they are atraid of alt. This is clearly a stomach medicine, it works all its wonders there, and in all such cases it is a specific, if anything in the world

Having given the Tineture a fair trial with my self, in my family neighborhood, I think I am war ranted in what I say about it, and which I do with out any other interest than the wish to see it in where it ought to be.

If what I say be doubted by any of the afflicted, and they will write to me at Sandy Bottom Post Office, Middlesex county, Va., stating the nature of the disease, and I recommend it for such a case I will warrant it, and if it don't do good, I will pay for the medicine.

History of the Beech Drop, or Cancer Root. THE BEECH DROP, OR CANCER ROOT, is figured and lescribed by the celebrated Dr. Barton, in his Medi-A knowledge of its extraordinary medical virtues

was first learned from the North American Indians,

y whom it was used for the treatment and cure of ncer, Rheumatism, Scrofula, and Consumption. The Fluid Extract of Orobanche is composed enirely of the products of the vegetable kingdom, so combined as to possess in the greatest perfection the virtues and powers of an alterative and purifier of the blood. It is, therefore, applicable as a never-fulling remedy in Scrofula, whether suppurative or glandular, Chronic Rheumatism, Cancerons diseases in any form, especially cancerous diseases of the Uterus. In all complicated cases of Scrofula and Syphilis, and in cases where the syphilitic virus of the parent causes a development of Syphilis or Scro-fuls in the child, this is the only remedy upon which bope of recovery can be reasonably founded. It is useful in all scaly skin diseases, Ulcerated ore Throat, White Swelling, diseases of the bone, and all cases of an ulcerous character. It is also particularly useful in Chronic and Nervous Complaints, occurring in debilitated and cachetic constiution; in Bronchitis, Dyspepsia, Chronic Enlarge ment of the Liver and Spleen, Dropsy, diseases of the Kidneys and Blander, and all diseases arising from

in impure state of the blood. The estimate that is accorded this preparation by the medical profession, and indeed by all competent judge of its merits, may be seen in the fact, that is constantly prescribed by many of our most emientphysicians, and that it has been presented to heir students as worthy of their especial attention. The following certificate is given from the very best authority-John R. Jones, late Assistant Clerk in the House of Representatives. His recovery is ecusidered extraordinary. Most of the members of both Houses of Congress visited him at the St. Charles Hotel, and expressed their astonishment at the wonders effected by the Compound Fluid Extract Beech Drop:

WASHINGTON, D. C., April 29, 1853. For the benefit of the pubcic, and with none other than a desire to do good, I cheerfully state, that I was afflicted with a cough and bronchial affection, from July, 1852, to March, 1853, and during that time was almost constantly confined to my room, aboring under great debility and severe cough. I had medical skill of the highest order, through whose treatment, and under the guidance of a higher than mortal power, my life was prolonged til! March, 1853, when I commenced the use of Dr. Kidwell's Beech Drop, or Extract of Cancer hoot. Since that period I have taken about six bottles of the medicine, and it gives me pleasure to state that it has effected an entire cure, with the exception of weakness, occasioned by long confinement to my room. I would advise all persons similarly afflicted to try it. I consider it an invaluable medicine. The humbugs usually palmed upon the public in the shape of certificates favorable to the virtues of medicines, almost deter me from giving mine; but sense of justice and humanity alone prompt me to make the above statement.

CHRONIC RHEUMATISM CURED!

GEORGETOWN Jan 31 1853. DEAR Sm: It is with a sense of gratitude, and desire that others suffering from disease may be in-duced to use the Extract of Beech Drop, that I conent to give the following statement for publicity. Until the last month I was a sufferer from Chronic Rheumatism, from the effects of which my health war so completely undermined and broken up, that lost 20 or 30 pounds of my usual weight. Anxious to find some relief. I resorted to the most approved patent medicines. I used a number of bottles of lownsend's Sarsaparilla, and exhausted the list of Liniments, without any effect. My joints now became enlarged, and the pains in my limbs so excruciating, that they had to be rubbed two or three times a night. The muscles of my legs were so contracted that I presented the appearance of a man of sixty-five when I walked. In this condition, more hrough curiosity than a belief in its good effects. I commenced the use of your Beach Drop, and in ten or twelve days the swelling about my joints had subsided; and now, after the use of three bottles, I am able to resume my business, and can walk with the same case and comfort that I formerly did.

Yours truly, &c., ISAAC BARRETT, Second street, Georgetown.

Georgetown, February 1, 1854. MR. KIDWELL-SIR: A female member of my family. aged 14 years, had been affected with a painful Scrofulous affection of the ear for 4 years, and although the best medical advice was had here and in Baltimore, still the disease increased and the pain often became almost intolerable. Fortunately for us, your Beech Drop was recommended to be used, and I have great pleasure in stating that it has been eminently successful. The Mucous Secretions has not made its appearance for some months; the health of the patient has been quite restored; all the parts that were heretofore so much diseased have become sound and well, and I am much gratified in being able to state to you, that I regard it as having been accomplished entirely by the use of your Beech Drop

I am very respectfully, your obedient servant, To John L. Kidwell.

GEORGE POE. Jr., WASHINGTON, D. C., December 12, 1853. John L. Kidweil: Dear Sir-This is to certify that ny daughter, aged 2 years, was affected with Scrofla of a very aggravated form-the disease had so undermined her health, that life was entirely despared of. Hearing of the efficacious effects of your Beech Drop in such cases, I procured it, and after using one bottle so evident was her improvemen that we persevered with it. When she had used bottles, her health was perfectly restored. Our neigt bors and friends who saw her condition prior

to using the Beech Drop, unite in attributing to your remedy the credit of her recovery. Very respectfully yours, WILLIAM R. McLean. To John L. Kidwell, Georgetown.

DAILY EVENING STAR

Pat out the light ! Shal sware "And then get into bed!" - Jankins William and John occupied separate beds in the same room. John was honest and timid, while William was cunning but lazy. On entering their room to retire for the night, John with his usual alacrity, undressed and jumped into bed. while William was pulling off his boots and deciding which side of his bed would most likely be the softest.

After a few minutes delay William sprang into bed, placed his head upon two pillows, and doubled himself up pre paratory to a comfortable snooze, when what should he discover, when just ready to drop off, but that he had carelessly left the fluid lamp burning. The discovery gave rise to the following soliloquy:

Twont do to leave the lamp burning, but it's so very cold that I hate most awfully to get out on the floor; but still that lamp must be blown out. I wonder if I can't make John get out? I'll try.

"Hello." to sometag satt, addl alf... "Did you ever know Daniel Hoskins. reman of engine 37 ?"

"No. Why ?" "Nothing, only I didn't know but you knew him. I saw by the papers that his death was caused last week by inhaling the ouherogun fluidical vapors from a lamp that he accidentally left burning in his room. After the fluid was all consumed, the chemist said that the oxorgical suction of the wick so consumed the nitrogen of the lungs, that the fluidical vapors suddenly stopped the inspiration,

and the heart ceased to beat." John raised himself up in bed, gazed with a sternness indescribable on the reclining form of his room mate, and, in a stentorian voice, exclaimed:

"Why in thunder don't you blow out that lamp ?" nov valg of al "Well, sure enough," was the reply.

John, it'll go out itself in a little while.' "No, it won't go out itself, not in a room where I sleep." And in the twinkling of a cat's tail, John had extinguished the light and refurned to his bed, muttering as he did so, "I'd rather get up a dozen times than to die as Daniel Hoskins did."

In the morning John wanted to learn all the particulars about the death of Mr. Hoskins, but William had no recollection of ever speaking of it, and accused the honest fellow of dreaming .- Dodge's Mu-

Just show her your crochet work when you shriek at her. "Have you spent half your days upon these clumsy anti-macassars and these ottoman covers? My dear lady, is that your web? If I were big enough, I might with reason drop you and cry out at you. Let me spend a day with you and bring my work. I have four little bags of thread-such little bags! Out of each hole a thread runs, and all the threads-more Head, Hurried and Difficult Breathing, Fluttering they run, and when they are all spun make but one thread of the web I weave. I have a member of my family who is herself no bigger than a grain of sand. "AMBASSADORS FOR CHRIST."-The Hon. Mr. Dodge, of Iowa, in his speech, on the Nebraska Bill, makes the followecons. J. T. BATES, : Saramar gai

"The ministers of God and his holy religion are to be dragged into the grand political crusade against a domestic institution of fifteen States of our Union. With a few exceptions. I do not believe the call will be responded to affirmatively by these ministers soever it may be taught-as one who believes that all our hopes of peace and good will on earth, and of happiness hereafter depend upon the supremacy of religion, I appeal to hose who minister at its sacred altars, not to allow their great cause to be dragged into the party conflicts of the day. most fervently trust that lhey imitate the conduct of their illustrious founders, and avoid all conflict and entangling alliances with the civil power of our Government, or the partisan conflicts of its people. MILLSON UN YOUNG AMERICA.-Young America cannot wait. It is perpetually creaming "Progress! Progress!" The course of nature is altogether too slow. Nature is superaunuated a driveler. All that is wise, and prudent, and just, and temperate, and patriotic, and respectable. it calls "fogyism." Shallow, saucy, headstrong, fool-hardy, it sees no danger, and avoids none. The disciple of Young America would loose the avalanche from its bed, and leap on it to guide its course down the steep side of the mountain; and the same rocks against which he would "it a'nt out, is it? Well, never mind, be hurled, and which would throw back his mangled and lifeless body to the ground, would echo his wild shouts of triumph. These advocates of progress would plunge into the swift current of Niagara, and wave their hands, delighted while the rapids were hurrying them to their dreadful fate; and even when borne to the very brink of the torrent, their song of exultation would mingle with the coar of the cataract.

Comeout, "exclaimed a ragged unwashed urchin, the other evening, as he stood in front of a groggery, gazing wistfully at his father indulging a glass too much. "Come out, dad!" he said, and then he looked again with the most melancholy visage, apparently wondering why his simple appeal was not noticed. And there I e stood, poor little fellow, his bare feet on the cold flag-stones, his clothes ragged and dirty, and his face giving evidence that his meals were not regular or of wholesome food. What were the emotions of the child's mind, the reflecting reader may imagine. "Come out," he repeated, but his summons was unbeeded. The miserable man was throwing away that which should furnish shoes for his child and sustenance for his family. And like a statue stood the misguided man's offspring, until the tears trickled down his cheek, when he turned away to go, we know not where. How many a "come out" is nightly spoken, and how many a beggar is made because than 4,000 threads-I spin together as the "come out" is unheeded. Alas, poor human nature! It will multiply and replenish, and make itself miserable, and encourage pauperism and the direst misery. 'Come out! come out!" No man has a right to make a beast of himself while he retains the peculiarities of a biped. Look to it, neighbor!
